

Survey Board - Customer Satisfaction Survey Application

Survey Board is a customer satisfaction survey software application, that can be run as a standalone application, over a corporate network or over the Internet.

The primary purpose of the application is to conduct an after-sale telephonic customer satisfaction survey and get results in graphical or tabular formats.

You can either build your own survey or choose one from the available templates.

Features:

- Browser based
- Runs over Internet or local network
- Access restricted
- Custom survey designer
- Capture satisfaction level
- Graphical dashboard
- Tabular reports
- More..
